

THE VOICE OF THE INTERNATIONAL ROAD

The International Road Federation (IRF) is a non-profit association coordinating the views of the road sector and acting as a platform for dialogue and research on mobility issues, serving a network of over 350 members, in over 90 countries, from the public and private road sector committed to road development. IRF actively supports national and international efforts to drastically decrease road fatalities by giving the road sector a consistent and united voice on road safety.

The European Union Road Federation (ERF) is the Brussels Programme Centre of the International Road Federation (IRF).
